Policy on Slow Learners and Advanced Learners

Mechanism of assessment of learning level of students:

Within the classrooms faculty have to deal with different types of students; some are very intelligent who learn very fast and some are quite weak who learn slowly. Therefore it is required to determine the abilities of the students in the class. Based on the ability determined, some students need only guidance and some students need a hard work and regular attention.

On the basis of their preceding exam performance, current subject performance and class observation, students can be classified in two groups; advanced learners and slow learners. Each type of students has different learning attitudes and learning habits.

The purposes of assessment of the learning levels of the students and conduct of activities for them are

- * Identification of the slow learners and advanced learners in the class.
- * To ensure that slow learners and advanced learners are taken care as per their needs.
- * To help them out for improvement in their academics.

Objectives:

- * The objective of assessment process of the learning levels of the students is:
- * To identify the factors affecting the student's performance.
- * To analyze them with respect to the institutional framework.
- * After identification and analysis, make efforts for improving their performance.

Assessment of the learning levels of the students:

- * Slow learner and advanced learners would be identified for each subject separately for one academic session (odd semester and even semester).
- * Process to identify of slow learners and advanced learners would be conducted immediately after the compilation of CIE (continuous Internal Evaluation) in odd semester.

*Slow and advanced learners are identified based on mainly two parameters-Marks obtained by student in class test and unit test in odd semester, Marks obtained by student in preceding Board/University examination

After that, separate list will be prepared for both types of learners. The institution organizes special programmes for advanced learners and slow learners with the help of mentors and subject teachers.

Activities for Slow Learners

- * Personal attention provided by respective subject teacher in teaching.
- * Assignments and University question papers.
- * Providing Question bank.
- * Counseling through mentoring Programme. Mentors provide academic counseling to their mentees in order to solve their issues .The mentor-mentee meetings are arranged periodically or on demand to motivate the students.
- * Revision classes are taken after the completion of the syllabus.
- * Regular parent- teacher's meeting is organized twice in a year and informs the parents regarding the academic status of the students and the remedial measures undertaken.

Activities for Advanced Learners

- * Advanced learners are motivated to participate in Intra College and inter college competitions, research paper writing and essay writing competitions, debate, Power point Presentation and various activities conducted by the college.
- * Motivate to strive for higher goals and to be the best student and held top ranking position in the University Examinations.
- * Organizes career awareness programmes through Career Guidance and Counseling Committee.
- * They are motivated to participate in online certification courses.
