## Workshop

**GONDIA EDUCATION SOCIETY'S**  
**S. S. GIRLS' COLLEGE, GONDIA**  
DEPARTMENT OF ENGLISH  
is organising

**10 DAYS WORKSHOP ON COMMUNICATION SKILLS AND PERSONALITY DEVELOPMENT**

From 07 March, 2022 to 17 March, 2022

**CONCEPT NOTE**

It has been rightly quoted, "Where there is a will, there is a way". With strong personal development, we can develop the necessary will. The most successful people have one thing common to them, and that is they are self-motivated. They motivate and empower themselves with the right beliefs and thoughts. One of the sure paths towards personal development is to cultivate the right mindset to reach our ultimate goals in life. The correct mindset can be obtained only by means of effective communication skills.

Communication skills are the integral part of career building and open the doors of numerous possibilities in the desired field. Being able to communicate effectively is one of the most important life skills to learn. Communication is defined as transferring information to produce greater understanding. It can be done orally through verbal exchanges, through written media (books, websites, and magazines), visually using graphs, charts, and maps or non-verbally (body language, gestures, pitch of voice, and tone). All of these means of communication are essential soft skills that are vital for a successful career. Having strong communication skills aids in all aspects of life – from professional life to personal life and everything that falls in between. From a business standpoint, all transactions revolve around communication. Good communication skills are essential to allow others and yourself to understand information most accurately and quickly.

Nowadays English has become a global language a connecting link, a language of modern science and technology, source of international communication. The aim of organizing this workshop is to enhance English speaking and writing skills, common usages of the language and to foster understanding of the language's variety, productivity and adaptability along with learning of some essential communication skills and personality development traits.
