Policy of Infrastructure Development and Augmentation

Following policies and procedure have been adopted for upgrading and utilizing the infrastructure and resources in the college. These are as follows-

- The college has adequate infrastructure facilities for effective and efficient conduct of educational program and they are upgraded time to time.
- College development committee gives recommendation to improve infrastructure and development and it is initiated time to time.
- Special care is taken for utilization of present infrastructure development of the college.
- Purchase and building committee are formed for construction and maintenance of infrastructure.
- The college administration officers and members of discipline and vigilance committee regularly monitor and supervise the overall infrastructure and insure its repairing and maintenance work.

Procedure :

The procedure followed to ensure proper implementation of the infrastructure development plan is:

- The budget for construction, purchasing equipments, maintenance, repairing and development work is prepared and approved by college development committee.
- After finalization of fund, it is used for infrastructure development.
- Government funds are optimally used and spent as per norms of the government rules.
- The grants under different scheme of UGC allotted in different heads are spent under the strict guidelines laid down by UGC.

S. S. GIRLS' COLLEGE GONDIA

- Transparency and accountability are ensured by conducting an annual audit of the statements. In order to ensure and monitor effective utilization of fund, GES has authorized a chartered accountant, who checks all expenditures. Furthermore, every year the principal appoints a purchase committee, which plans and approves all purchases. The expenditure out of the UGC grant was planned and implemented by the principal.
